

# Discover Australia Australia My Land Newsletter

*March 8th 2008*

**Hello Everyone,**

**Summer ended in Australia the other day** – it's a shame to see it go – but we are now moving into the very best time of the year to see many wonderful parts of our country. Don't worry, if you are coming down under, you will still be able to swim and enjoy all we have to offer.

Special thanks to AML member Glenn Budd - Digital Light Photography - for the sunset photo.

I received an email this week from one of our newest members asking if there was any work available and it started me thinking about the people that are stuck at home or for one reason or the other, are out of work, or can only work a few hours a week, and it reminded me to let you know that,

## **YOU CAN EARN MONEY WORKING WITH AML?**

**That's Right! Earn REAL money working with AML!**

You can work along with AML and we will pay you very handsomely for introducing people who take up space on the site. We have ads from as little as \$0.85 pw (\$44.20 pa) right up to \$49 pw. (\$2500 pa) Our most popular space is a directory entry that sells for \$2.20 Per week (\$114.40pa.).

For each and every one of these that join AML from your recommendation you receive \$28.60. A special feature ad would give you a whopping \$625. **You are able to make yourself a nice tidy income.**

For everyone you introduce, that takes up a space, **we will pay you 25%.**

All you do is formally introduce them to us via an email with your membership number and the day they come on board we send you a cheque. However you **MUST** have spoken to them to tell them about the site first, please do not just send a heap of names for us to chase up. Or if you run an Aussie business and you are already an AML member and you want to place an ad just deduct 25%.

**Good luck with that guy's.**

You can download the price catalogue from any page at the bottom of the AML website to show them and if you need any help just email.

**Tell your friends about the site and the opportunity to promote their business.**

**Thank you for joining!**

I always like to send a special welcome to those of you that have just joined; we wish you every success with your life and business and look forward to a long and prosperous relationship. With us all working together **we will generate more possibilities for everyone.**

**The Forum**

**We really encourage you to use the forum!** The forum is there for ALL the AML members. Sponsors and advertisers are able to advertise in the forum or maybe you have positions available; you can tell others you are looking for work or that you are seeking some information about Australia – please use it!

***It is... “Your individual contribution that leads to AML overall success”***

## **Australia My Land Today!**

### **- The latest news of OUR website –**

**WOW! The response to the Free Membership Club** has been really keeping us busy, hence the fact this newsletter is a few days late. Our development team is working on the Gold Coast Regional pages for the website and they are not far off going online.

**There are some new Business Opportunities** going on the site in the next few days so keep an eye open for them. The ‘bolter’ at the moment is the **E-Verge** communications opportunity. There is more in the “Sumfin4Nuthin’ section below.

**AML are preparing for something very special of their own.** When new members join on the site they are *now* asked for the name of the person or the source of the recommendation to join. Many people are simply finding us and joining however if YOU send someone to join **MAKE SURE** they place YOUR name in the **Referrals Text Box**; we will be sending out some rewards soon to those referring Members.

**In the meantime let's get those members rolling in, here is the link again!**

**<http://www.australiamyland.com.au/members.html>**

**Tell others about it; the more people that know about AML the more business for you!**

Please keep telling your friends and other business people about our site, not only here, let them know off-shore as well. I do not know if you all understand networking? But in short it is about business people getting together and talking to other business people about their business...

Which reminds me to say a big hello a new member, computer programming advisor John Jensen in Granite Falls, Washington State, USA, where he is likely freezing to 'death' right now. **KEEP WARM JOHN!!!**

- **FREE advice from the experts –**

#### There are many ways to make money on the internet

In the business pages on the AML site you will find a number of online opportunities that we have investigated that you might like to consider.

[www.australiamyland.com.au/pages01/busiweb.html](http://www.australiamyland.com.au/pages01/busiweb.html)

Some of our members are already involved in these projects and are able to offer you **free advice** on how to utilise these opportunities most strategically. Whether you are looking to earn from a few hundred to a few thousand dollars – casual, part-time or fulltime. Our marketing team are reviewing new opportunities every day or so, most are rejected but every now and then they come across one that catches their eye and they 'give it a whirl' for a few months. The ones that are successful after a while will be presented on the site for your benefit. We are also affiliated with a new site soon online at **Aboutime WebShop**

so when we get the word we will tell you about that as well. It will be a site that evaluates a number of business opportunities as well as presenting a small **Business Plan** to use in starting them. In the meantime do not hesitate in emailing us with any questions or suggestions you may like to ask us about.

---

*Good luck everyone I wish you all every success with your businesses, until next time,  
“you be good”*

**Regards**

**Rob Wilson**

**REMEMBER!**

We and our team at AML are in the business of building web pages for the internet and as such, we are happy to receive referrals to pages that need work completed, updated or overall advice on improving the performance of the site.
