

**December 16<sup>th</sup> 2008**

**What a month! What a year for that matter.** December already and it is very hard to believe we are racing toward yet another holiday period and in a few short weeks it will be 2009.

Well, it is finally starting to get hot downunder in Australia; summer has arrived. People are out shopping and having fun and making ready for the festive season.

In less than a month we'll head into 2009 together, **and what could be a record breaking year for you and the home business industry.**

### **You need to know this...**

The **Australia My Land Team** is working like crazy in anticipation of taking advantage of massive wave of new people who will be entering the home business industry, both here and around the world. As soon as we have our programming finished and tested we can let you know an official launch date for our Affiliate Membership Programme, **AML-AM**.

There is no doubt that we are in a recession proof business and when I say "**we**" I mean you too!

### **"Attracting People and Friends to your AML Business..."**

It is great to be working in a niche market, let's face it Australia and Australian's are well liked right around the globe. **Australia My Land Members WILL BENEFIT** from the worst economical down turn since the Great Depression.

### **This is a massive opportunity for you!**

There are going to be hundreds of thousands of people entering home based businesses **for the very first time over the next two years**, and they are all going to be looking for a leader like YOU!

Words can not describe how **YOU**, via **Australia My Land**, could not have a better opportunity to capture the attention of people and advertisers, establish trusting relationships, and build a solid business while many other businesses could crash or fall apart! **AML-AM** will attract people of all marketing interests as it is a unique blend of direct marketing and traditional marketing. Some people will be attracted by the 'network' aspect while others will simply be happy to 'sell a product', especially the advertising on **Australia My Land**.

### **All you need! Is the willingness to get started!**

The beautiful part about AML is that you do not need any special skills – you only need to tell people about your AML business – they will join and YOU as with every other AML member of **WILL MAKE MONEY!!**

Do not underestimate the competition from other team members, it will be fierce, but the more competition, the better it works. Talk with friends, work out your strategies, this is a time when people are desperately looking for leadership and if you are smart you will be able to take you and your AML business to incredible new heights.

## ***My Advice,***

### ***Is to work around these three qualities:-***

**1: Transparency:** Australia My Land is a family site and is built on honesty and trust, the more open you are about your AML business, the better. ***Do not brush things under the rug, hide anything or make unrealistic promises or comments.***

The opportunities in AML are numerous, all you have to do is learn them, understand them and explain them to others. They will quickly see those benefits as well and be happy to help you promote Aussie Suppliers.

**2: Genuine:** ***This may sound strange but the programme opportunity is irrelevant.*** People will join you for a number of reasons: -

1. Because they perceive you to be someone that can help them get what they want.
2. You are enthusiastic and interested in both them and in promoting Australian products and services, which is for the benefit of all of us.
3. You have a genuine opportunity and you have a system they can see themselves using successfully.

**3: Value:** **With its unique blend of direct marketing and traditional marketing,** there are many different opportunities for EACH Member to earn either a little or a lot. In these times when people are hurting they need to feel that that the effort they put in is going to be rewarded and rewarded quickly, according to their budget and the effort they put into the project. **AML does that!** What is more, new members **are able to start up for FREE and grow from there at their own pace!!!**

**Once they are an AML-AM Member** a person can follow the progress of what we are doing without the pressure to 'build it now' to cover a regular cost each month. **They can do that even now** while we finish the development stages. **There is no pressure either to buy products or chase new Members.** Each Member can set personal goals that suit them and work to achieve those goals. They can either simply tell friends about the programme and build their personal AML-AM Team, or sell the advertising opportunities to their own business suppliers (their local butcher or candle-stick maker) and build their team that way or they may go all out to promote the whole programme with a view to gaining the bonuses on offer.

**In any instance, ALL AML-AM Members will find VALUE** in just being involved with our promotion of Aussie businesses, from the discounts they can receive from our Supplier Business Members or from building their own AML-AM Business.

Let people make up there own minds, they will join you once they grasp the concept. Remember people are going to be looking for home based business opportunities in this environment.

***Good luck!***

### **Internet Banking**

**Many people are still concerned**, and rightly so, about making monetary transactions on the Internet. Nevertheless the www can be very helpful for Banking, Buying and Selling on the Internet. (See **Downunder Auctions** link below)

**So how do we make things secure for ourselves on the Internet?**

**Firstly, when buying products on the internet** make sure you are dealing with a reputable company. If you have NOT heard of the company then do a thorough search on **Google**, you will find a lot of information on a lot of subjects, and most reputable businesses can be found with comments about their service. However do not be quick to dismiss someone on the basis of one or two bad comments, there will always be those who criticise because of one bad experience, many times their own fault, nevertheless, make sure you find **where the company is** and **whether they can be contacted easily.**

**Can you phone them direct? Do so before purchasing**, it will make you feel a little more confident that if there IS a problem later they can be contacted. A good business, even a private seller, will always have a phone number AND a mailing address on their site - **do not rely solely on e-mail addresses, they can easily be changed** and often are by scammers. The more money that is involved the more intense should be your investigation.

**Secondly and MOST IMPORTANTLY! DO NOT USE Credit Cards with LARGE CREDIT LIMITS** to purchase over the Internet. Ask your bank for a **Credit Card** with the smallest workable limit for your Internet needs. The same applies to **Bank Accounts**. It is usually quite simple and reasonably cheap to set up a Bank Account JUST for linking to the Internet. Even when dealing with companies like **PayPal** (where you can set up a Bank Account in Australia to withdraw to and draw money from, its great!) use a Bank Account with just the

minimal amount needed for your Internet Trading.

**Hackers are NOT interested** in people who keep \$100 in a bank account. They need to first of all hack INTO the account, then they need to find a way to get your money OUT of that account. If they hack into your account and find \$10 they will forget about spending another 30 minutes trying to get it out, whereas a large amount of dollars will entice them to try.

**If you have ANY questions about transactions on the Internet** do not be hesitant to ask, simply email us at [enquiries@australiamyland.com.au](mailto:enquiries@australiamyland.com.au). Remember though we are not a legal firm and cannot take on individual cases of fraud or misappropriation.

## **Australian Facts**

### **The Southern Cross:**

The **Southern Cross** star group can only be found in the Southern Hemisphere. The group's distinctive shape is easily located because of its brightness and close proximity to each other. It can be seen all year round from almost anywhere in Australia.

The Southern Cross contains four bright stars so situated that they depict the extremities of a Latin cross. Thousands of years ago these four stars were an object of reverence in the Near East. In the Biblical days they were just visible at the horizon. It was last seen from the latitude of Jerusalem at the time of the crucifixion of Christ. It is no longer visible at latitudes north of 25 degrees.

The constellation was again discovered in the early sixteenth century by European navigators and explorers who used it to steer by and also to calculate the time of day. Because it is not visible in the northern skies, there are no Greek or Roman myths or legends associated with it. Instead the Australian Aborigines have many stories to tell using the stars of the Southern Cross.

***WHY NOT COME? SEE THE SOUTHERN CROSS IN AUSTRALIA FOR YOURSELF?***
