Sydney's New Year Celebrations would be one of the most interesting, exciting and electrifying in the world!

The Sydney Harbour Bridge plays an enormous roll in Sydney celebrations. Film and picture are broadcast all around the globe. Locals, Sydney visitors and tourist come from all over to witness the magnificent pyrotechnic show and enjoy the music that echoes through the city and harbour.

Thousands of Sydneysiders line the foreshores and cram onto boats and cruisers. All the hotels, motels and serviced apartments are booked while every vantage point is taken, with all the discovered, and even the undiscovered, positions on land and sea taken up by revellers. In fact some camp overnight to secure their space around Sydney Harbour.

All the local celebrities and their guests including some from overseas are invited. Just to mention one of those high profile people that came this year, Paris Hilton, of the Hilton Hotel fame and her entourage decided to pay Sydney a visit and join the other invited guests at the Sydney Opera House. A comfortable spot to enjoy the fiery display!

Every Australia My Land member should make the pilgrimage to Sydney and come to the new years eve city party once in their life..

I would like to take this opportunity to welcome you all our Australia My Land members to the New Year, 2009 and wish you every happiness, goodwill and success in all your ventures and adventures. Go after those New Years resolutions and achieve them.

Never give up, your road to the things you will to achieve can be a little hard sometimes, you will continually find obstacles placed in front of you, they have been purposely placed there to test your will and resolve. Just push past!

So welcome to 2009 Australia

The year has started with a real Bang, sorry about the pun. More and more people are showing interest in what we are building. I am receiving more and more emails from people all over the globe. The following email from Jenny reflects exactly what we are trying to achieve;

What are you waiting for, 2008 is gone, it's over!
THIS IS 2009

DO NOT LET ANOTHER YEAR GO BY WITHOUT MAKING YOUR MARK!
Australia My Land the business is young and rearing to go, ground floor opportunities like this one only happen once!

In last months Newsletter:

In less than a month we'll head into 2009 together, *and what could be a record breaking year for you and the home business industry.*

You need to know this...

The Australia My Land Team is working like crazy in anticipation of taking advantage of massive wave of new people who will be entering the home business industry, both here and around the world.

There is no doubt that we are in a recession proof business and when I say "**we**" I mean you too!

It is great to be working in a niche market, let's face it Australia and Australian's are well liked right around the globe. Australia My Land members **WILL BENEFIT** from the worst economical down turn since the Great Depression.

This is a massive opportunity for you!

There are going to be hundreds of thousands of people entering home based businesses **for the very first time over the next two years**, and they are all going to be looking for a leaders like YOU!

Words can't describe how **YOU** via Australia My Land could not have a better opportunity to capture the attention of people and advertisers, establish trusting relationships, and build a massive business while many other businesses could crash or fall apart!

All you need! Is the willingness to get started!

The beautiful part about AML is you don't need any special skills – you only need to tell people about your AML business – they will join and YOU as with every other AML member of **WILL MAKE MONEY!!**

Don't under estimate the competition from other team members it will be fierce, but the more competition, the better it works... Talk with friends, work out your strategies, this is a time when people are desperately looking for leadership and if you're smart you will be able to take you and your AML business to incredible new heights.

My Advice,

"Is to work around these three qualities:"

1: Transparent: Australia My Land is a family site and is build on honesty and trust.. The more open you are about your AML business, the better. ***Don't brush things under the rug or hide anything.***

The people you will talk with about the AML opportunity will find the answers they're looking for, ***be they good or bad*** and you want them to find those answers from you.

2: Genuine: ***This sounds strange but the opportunity is irrelevant.*** Others will join you for a number of reasons...

1. Because they perceive you to be someone that can help them get what they want.
2. You're enthusiastic and interest in them.
3. You have genuine opportunity and you have a system they can see themselves using successfully.

3: Value: The very best tool you have been an Australia My Land team member is the value you can inject into any conversation, you can beat off your competition, by explaining to prospective new members the many levels of income streams on offer. This is without doubt your best weapon. In these times when people are hurting they need to feel that that the effort they put in is going to be rewarded and reward quickly.. AML does that! What's more new members **are able to start up for free and grow from there!!!**

Let people make up there own minds, they will join you once they grasp the concept. Remember people are going to be looking for home based business opportunities in this environment.

Good luck!

Australian Facts

The Dingo:

The dingo is a magnificent animal and Australia's wild dog. The dingo's origin is very uncertain, all the researching scientists do believe that it could be related to Asian or Middle Eastern wolves and probably came to Australia sometime between 3,500 and 4,000 years ago.

The interesting thing or distinguishing feature about the Dingo is they DO NOT BARK! Dingos are able to communicate over long distances with howls - like wolves.

Dingos live in most parts of mainland Australia but they are not an animal you will find roaming city streets. Dingos while they are not nocturnal they are more active during the night. Dingos will eat just about anything, but the most of their diet comes from kangaroos and wallabies, rabbits, possums and rats.

Being social animals, they live in family groups which helps defend their territory. They get around too, roaming over approximately 8000 hectares, but don't stray too much away from home during the day. They often spend a few days in one place and then move to another, gradually moving around their whole range.
