***Hello Everyone,***

**First of all apologies are DEFINETELY in order!** Sorry about the last few months, we have stepped up the technology and to be blunt have been unable to keep up with it! We have also been inundated with not only the progress being made with AML – have you noticed the new look? – but we have totally restructured the AML website/s - **see more below** (the latest news from ...).

***Nevertheless the news from AML is very exciting.*** We are now, after the hard work of last year, on the cusp of releasing the NEXT STAGE of **AML-AM** and training for the promotion of AML and Aussie Businesses has well and truly gotten started. For those who would like to make a little, or a lot, of extra money please now contact us for Promotional Material. The **AML Promotions Catalogue** and the **AML-AM Powerpoint Presentation** on the websites has been updated in line with the advertising options for all Aussie businesses to grab – and we welcome those who have already jumped on board and congratulate the Members who received the Bonuses for assisting them to come to AML.

**Our Business Members will want to check out the NEW [AustraliaMyLand.BIZ](http://AustraliaMyLand.BIZ)** where we have not only trimmed the process and saved ourselves some time but have made it easier for businesses to become involved as well as surfers to find what they are needing. However this means most of the current Business Members who are still FREE AML-AM Members will want to upgrade to at least Key Membership and receive their own FREE Full Page Supplier Profile. **See samples:-**

**- The latest news of OUR website –**

Have you noticed we actually now have TWO AML websites? Well THREE if you count the new AML-AM Members replicated websites! We have taken **AML.com.au** BACK to the original concept of being a strictly 'information site' about Australia, and have trimmed the advertising to a minimum.

We have always thought of AML as a glossy magazine - one that people look at for information. How many people pick up the Womens Weekly or Sports Illustrated to look at the advertising? We pick them up to READ something. So it is with *AML.com.au*. However many people will also want to find **Business Information** about Australia so we now have the brand new - and as yet not quite finished - website that is a **Directory of Australian (and some international) Businesses**. We are NOW adding the businesses who have nominated to be listed with us in the directory and hopefully within a few months these directories will start to fill up. Well for a FREE listing to start with, WHY wouldn't you be in there?

*It is well worth a look - here is the link:*

[www.australiamyland.biz](http://www.australiamyland.biz)

It is on this site that not only are there directories based on Aussie Industries and Business sectors but also *Locality Business Guides*.

The *Locality Directories* will be going online soon with ONLY Corporate Business Members will be advertised in those pages.

### ***But wait there's MORE!!!***

The soon to be released *Surf and Earn Initiative* will promote the *AML-AM Business Key* and *Corporate Members* who have a *Full Page Business Profile* that ALL visitors to the site can now surf through (see samples above). These profiles promote Aussie Businesses and have links directly to their site, giving them virtually another internet presence with their *AML-AM Membership*.

***WE WILL TELL YOU MORE NEXT MONTH!***

### **[How to Promote Your AML-AM](#)**

Get your friends and associates to join the exclusive AML Club Membership.

Each AML-AM Member has their very own Member Profile Website. Later you will be able to submit a profile and photo of yourself, or your business, and it is here you can also ask your friends to sign up in your AML-AM team

**NOTE:- Sending people to the [AML.com.au](#) newsletter sign-up page WILL NOT place that person in your team - AML-AM will NOT be responsible for the positions a person may enter into if they are not directed to the right page to sign on.**

Invite prospective members to go to the following link -

**REMEMBER TO INSERT YOUR USERNAME (AUSSIE NICKNAME) IN THE ADDRESS BAR:**

#### **- The Big Wet Hits Kilcowera Station -**

***from Kilcowera Station - aml-am aussie nickname: zenonie***

Kilcowera has been transformed from very dry, dusty and dead to a bird and photographers paradise again.

After some rain in the last 2 months we received 97 mls on Christmas day! There are

swamps and dams on the place that have not had significant water in them this decade but they are now full. The 2 creeks near the house and quarters have both run very big, one even has rapids in it that you can hear roaring in the quiet of the evening or morning. Frogs croaking all night and hopefully birds coming back in droves. This could be the start of a good breeding event for them.

Lots of Budgerigars and Major Mitchells feeding on the ground, I also saw a Chestnut Quail Thrush and a Black Honeyeater this morning near the house. We are doing lots of walking as we certainly can't drive anywhere yet. I haven't gotten down to the lagoon yet but it will be magnificent when I do get there. Grass and herbage started to grow a few months ago and with this rain now the place is going to look great in the weeks to come.

Am attaching a small image of the road between the house and the quarters, those who have been here might remember driving down to the quarters with dust billowing behind them. Not now!

*All the best and a Happy New Year, Toni & Greg Sherwin*

## ***Australian Facts***

## **The Dingo:**

The dingo is a magnificent animal and Australia's wild dog. The dingo's origin is very uncertain, all the researching scientists do believe that it could be related to Asian or Middle Eastern wolves and probably came to Australia sometime between 3,500 and 4,000 years ago.

The most interesting thing or distinguishing feature about the Dingo is they DO NOT BARK! Dingos are able to communicate over long distances with howls - like wolves.

Dingos live in most parts of mainland Australia but they are not an animal you will find roaming city streets. Dingos while they are not nocturnal they are more active during the night. Dingos will eat just about anything, but the most of their diet comes from kangaroos and wallabies, rabbits, possums and rats.
